### Reasons for Allowance

1. Claims 1-29, 31-39 are allowed.

The amendment and arguments filed on 05/24/06, responsive to prior art of record, Salas et al., US 5,862,391 have been considered.

Salas et al., a prior art of record, discloses,

a power management control for adding devices, where the system provides a user to generate device interface within a graphic user interface. The interface provides user to configure and to devices. The power management control system includes software for monitoring and controlling selected aspects of power usage/consumption, and includes a dynamic data exchange (DDE) server to allow external programs to access power management data in a Microsoft Windows environment.

The records have been filed within Applicants remarks, particularly in the remarks filed on 05/24/06, Applicants pointing out that Salas does not add IEDs (amended) and does not suggest installing, by the power management control system, the DDE protocol upon determining that the DDE protocol is not installed and upon receiving selection made to add the IEDs (amended).

The following is an examiner's statement of reasons for allowance: The cited prior arts taken alone or in combination fail to teach claimed invention comprising the features as a whole, recited in such manners in independent Claims, 1, 7, 17, and 21.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ted T. Vo whose telephone number is (571) 272-3706. The examiner can normally be reached on 8:00AM to 4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wei Y. Zhen can be reached on (571) 272-3708.

The facsimile number for the organization where this application or proceeding is assigned is the Central Facsimile number **571-273-8300**.
